Executive Summary

Our impact at glance

The following demonstrates impact of our programs over the years:

Pillars

IKMF Scholarship Program

Key Impact

- KShs. 11.4 million provided to support student scholars
- Total of 145 scholars benefited
- 90% of beneficiaries improved critical writing/research skills

Alignment to Primary SDGs

Investments

- **2022 Investment:** KShs. 1.49 million
- **2024 Investment:** KShs. 5.74 million
- **Average Cost:** KShs. 78,627 per student

Outcomes

- Improved employability
- Reduced poverty cycles

Head Start Africa

Key Impact

- KShs. 13.4 million disbursed
- Supported more than 20 students
- Structured mentorship program
- 85% of beneficiaries reported enhanced employability and leadership skills
- 70% have experienced a measurable improvement in the quality of life

Alignment to Primary SDGs

Investments

- **Average cost:** KShs. 374,000 per student

Outcomes

- Higher school enrollment, completion, and graduation rates

Healthcare Program

Key Impact

- Covered medical expenses for the victims of the 2015 Garissa terror attack
- Donated medical equipment to Kenya Mended Hearts Patients Association (KMHPA)

Alignment to Primary SDGs

Investments

- KShs. 380,000 cumulatively invested in the program

Outcomes

- Improved access to essential healthcare services
- Reduced disparities in health outcomes and access to care

Support to Vulnerable Groups and Financial Assistance Program

Key Impact

- Over KShs. 1.4 million disbursed towards Nyumba ya Wazee project
- Sponsored corporate sports initiatives such as the Standard Chartered Marathon
- Donation of food and necessities to children's centers such as Angels Center for Abandoned Children

Alignment to Primary SDGs

Investments

- KShs. 550,000
- KShs.1.7 million directed to support **27 families**

Outcomes

- Gender equity, health resilience, and inclusion of marginalized groups

Special Projects

Key Impact

- Over KShs. 5.6 million disbursed
- Provided a borehole and solarised a water pump at St. Christopher's School in Kitale
- Supported borehole projects at St. Maria Goretti School
- Over KShs. 1.2 million was disbursed to provide support during the COVID-19 pandemic

Alignment to Primary SDGs

Investments

- KShs. 5.6 million
- Over **7,671 community members** benefitting

Outcomes

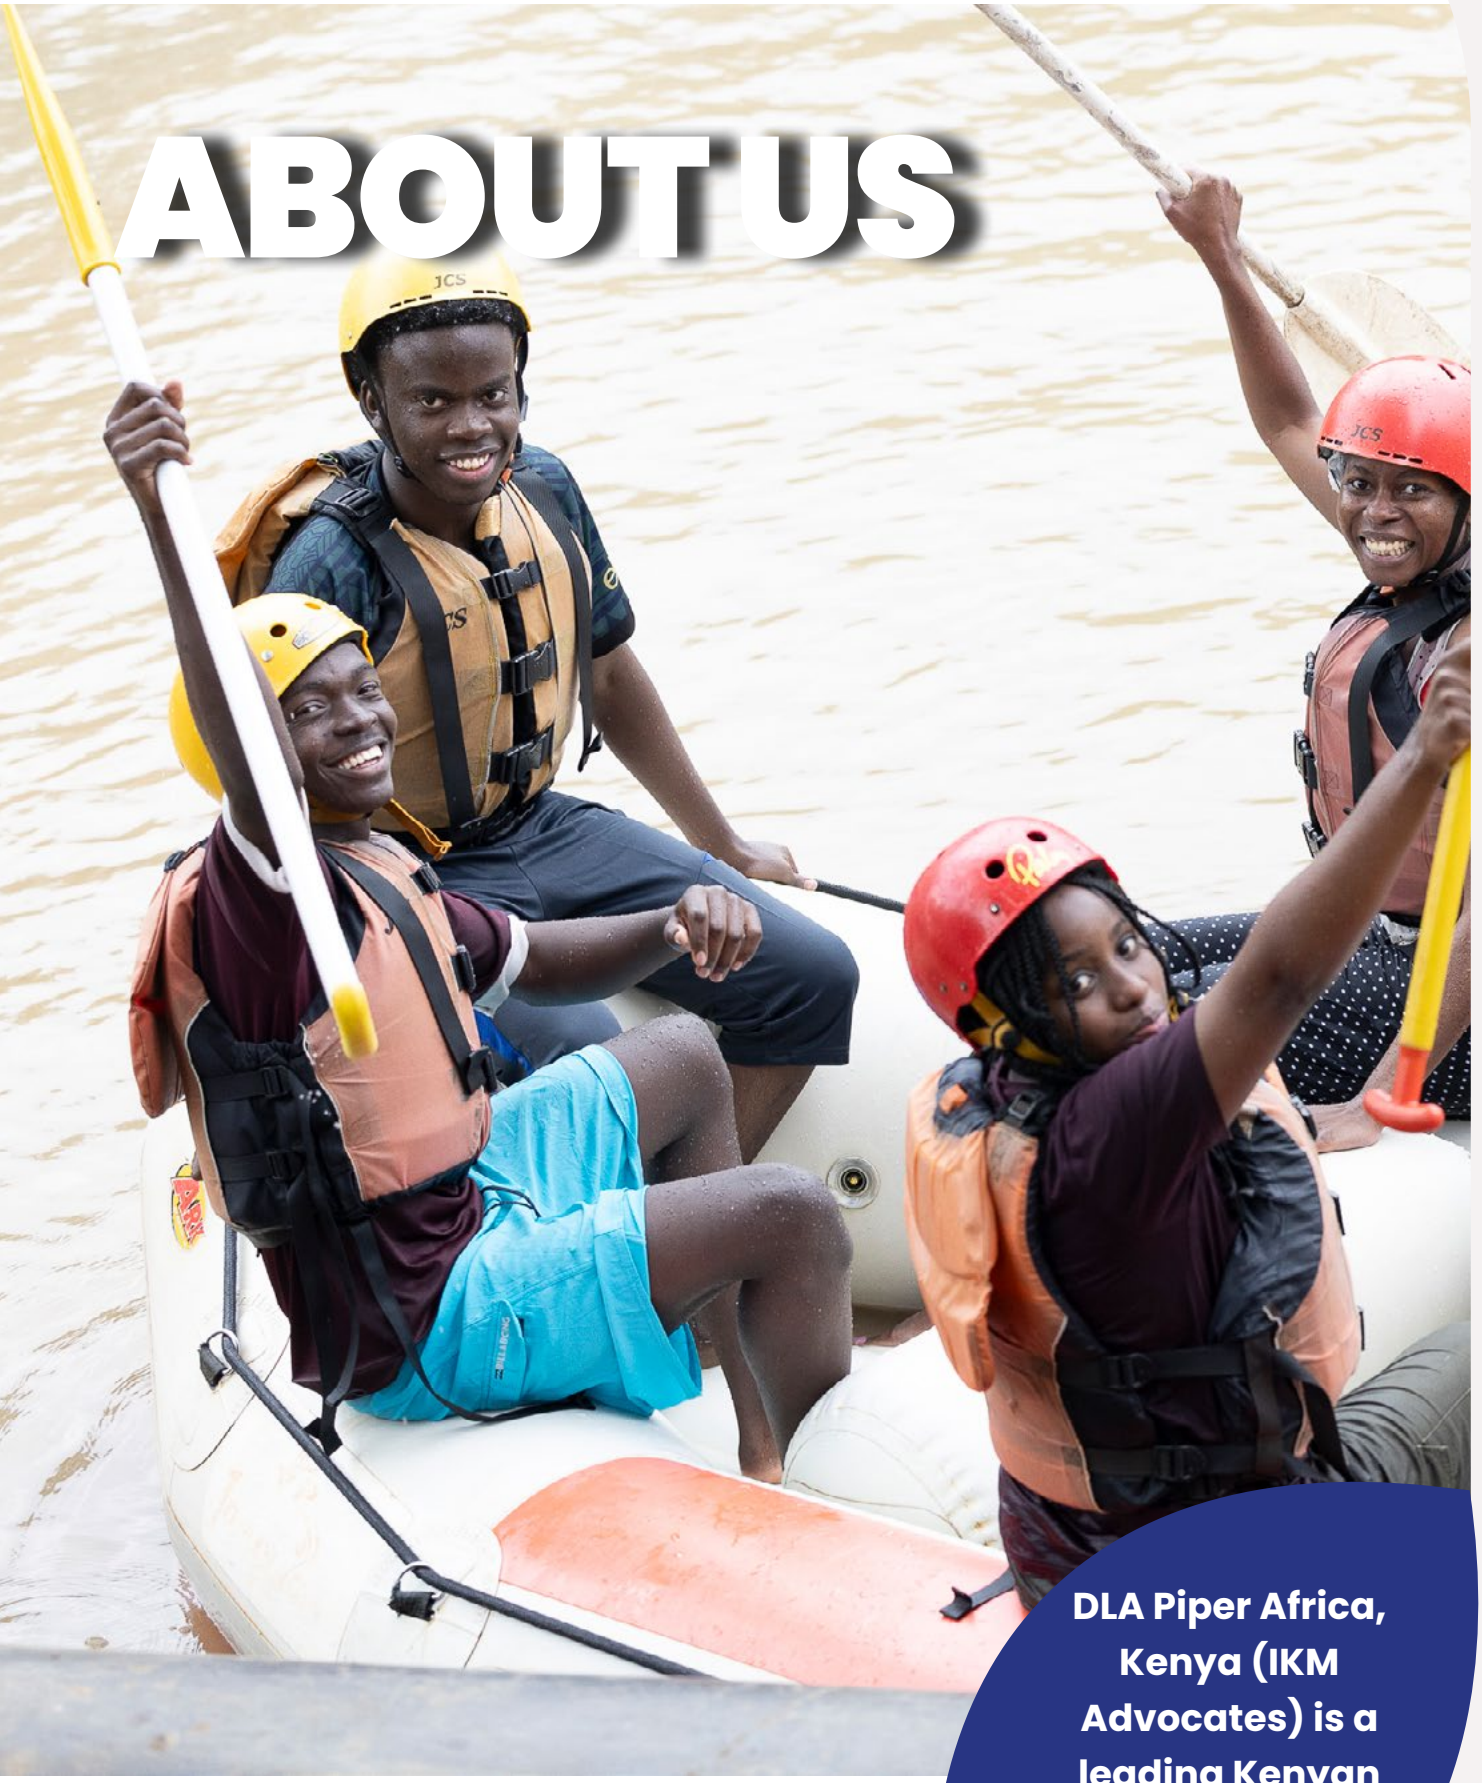

- Reduced energy costs and supported climate resilience

Operational Excellence

IKM Foundation operates under a robust governance structure, blending professional management with the pro bono values of DLA Piper Africa, Kenya (IKM Advocates). Key elements include:

- **Governance:** Strategic oversight is provided by an Advisory Board with two Co-Chairs, supported by a dedicated committee of IKM volunteer staff.
- **Management:** A full-time Programme Manager oversees day-to-day operations and long-term strategy execution.
- **Operational Rigor:** The Foundation employs technology like data management and automation tools for efficiency and employs stringent safeguards such as mandatory due diligence visits and a "direct provision" model for healthcare to minimize risk and ensure integrity.

ABOUT US

DLA Piper Africa, Kenya (IKM Advocates) is a leading Kenyan law firm based in Nairobi.

Who We Are

IKM Advocates is consistently ranked among Kenya's top-tier law firms and recognized as a full-service commercial firm with expertise across numerous practice areas. We are often listed in leading international legal directories like Chambers Global, The Legal 500, and IFLR 1000 for our high quality legal work in Kenya.

We provide comprehensive legal services to a diverse client base, including major corporations (local and international), financial institutions, government bodies, and development agencies. Our key practice areas include, but not limited to:

- Banking and Finance
- Corporate and Commercial Law
- Capital Markets
- Tax
- Energy and Natural Resources
- Employment and Labour Law
- Intellectual Property

We provide comprehensive legal services to a diverse client base, including major corporations (local and international), financial institutions, government bodies, and development agencies.

About This Report

This report provides our stakeholders with an account of our social impact initiatives, delivered primarily through the IKM Foundation. The Foundation drives meaningful change within the communities that are integral to our stakeholder ecosystem.

This publication serves as a snapshot of our activities during the specified reporting period of 2022 - 2024.

While we recognize gaps remain in our current disclosures, we are actively working to address these in future reports.

We value your perspectives and invite feedback. For questions or suggestions, please contact us at ikmfoundation@ikm.dlapiperafrica.com

Scope, Methodology and Assurance
Aligned with the Global Reporting Initiative (GRI) 1: Foundation 2021 and the United Nations Sustainable Development Goals (UN SDGs), this report demonstrates our commitment to transparent and balanced disclosure. We provide a candid account of both our progress and the challenges we face, prioritizing material issues as we advance our reporting practices. Please note that while this report has not undergone external assurance for the current period, we plan to secure external assurance for our upcoming reports.

Reporting Boundaries
Our reporting will focus primarily on the activities and performance of the IKM Foundation. However, where relevant data is available and adds value, we will also include insights on key partners who have collaborated with the Foundation.

Restatement of data
With the publication of our inaugural report, we take a significant step toward greater accountability. This report establishes the benchmarks for measuring our future progress, and as such, its data will not be restated. We are energized by this foundation and look forward to this report becoming an enabler of our ongoing conversation with stakeholders.

Board of Directors Statement

At IKM, we have always believed that our role extends beyond delivering exceptional legal counsel. True leadership is measured by the positive, lasing change we create.

With immense pride and a deep sense of purpose, I present the inaugural Impact Report of the IKM Foundation—a landmark moment that reflects not only our journey so far but also our unwavering commitment to accountability and transformative impact.

At IKM, we have always believed that our role extends beyond delivering exceptional legal counsel. True leadership is measured by the positive, lasting change we create. Guided by our mission of "improving lives through responsible business practices," we align commercial success with social conscience—a principle shared across our global network, DLA Piper.

This report showcases the progress we have made over the past three years in advancing access to education, healthcare, and community development. These stories are more than metrics; they represent lives touched and futures transformed through a strategic, multi-tiered approach to development. They stand as a testament to the trust placed in us by our people, clients, and partners—and to the resilience of the communities we serve.

None of this would have been possible without the unwavering generosity of our partners, donors, and the incredible team of volunteers from IKM Advocates. Your belief in our mission fuels our ability to lead boldly and innovate for impact.

As we look ahead, we are emboldened by our strategic plan and inspired to trailblaze new paths toward sustainable development. We will continue to leverage our core values to deepen our commitment and build resilient communities.

This report is not just a reflection of what we have achieved—it is a call to action for what we will accomplish together. Thank you for your trust, partnership, and shared vision for a better future.

James Kamau

Director, IKM Foundation

Message from Co-Chairpersons

This report moves from intention to evidence, showcasing the tangible results of IKM Foundation's work.

Of all the work we do, what inspires me most is the profound transformation we witness in our Scholars. Following the expansion of our secondary school sponsorships and the launch of our university scholarships initiative, Head Start Africa, I have been privileged to watch them grow in confidence, resilience, and leadership. This is a powerful reminder that investing in talent is not just about one individual; it is about shaping families, communities, and the future of our continent.

This report moves from intention to evidence, showcasing the tangible results of IKM Foundation's work. Our mission demands an operational mindset grounded in accountability, and nowhere is this more evident than in our flagship Education program. With an investment running into tens of millions supporting 200+ scholars, this is a deliberate intervention to break the cycle of poverty. The data speaks volumes: 85% of our scholarship alumni report enhanced employability skills, and 70% have experienced a measurable improvement in their quality of life. These are not abstract figures; they represent future leaders, innovators, and change-makers whose lives have been transformed.

A pillar of this success is our partnership in the Head Start Africa (HSA) programme. Co-funded with DLA Piper, HSA is dismantling barriers to the legal profession for brilliant, underserved young people. It is a powerful example of how strategic global alignment can catalyse profound local impact. As we move forward, we remain committed to continuous improvement and to listening. We welcome your feedback and collaboration as we work towards building more resilient communities.

Beatrice Nyafira

Co-Chair, IKM Foundation

More than delivering support, our mission is to build enduring relationships of trust with the communities we serve.

More than delivering support, our mission is to build enduring relationships of trust with the communities we serve. Across education, healthcare, and social welfare, we listen, collaborate, and deliver with integrity. This commitment is what gives our work meaning and ensures the Foundation is and remains a source of hope and tangible change.

As Co-Chair, my focus is to translate this vision into measurable and lasting outcomes. Every initiative is anchored in a clear framework for rigour, transparency, and sustainability. From our dedicated Program Manager and volunteer committee of IKM lawyers to the oversight of our Advisory Board, these structures ensure that our programs are not only professionally managed, but deeply accountable.

We are also strengthening our impact through the thoughtful use of technology. By investing in improved systems, we are enhancing how we track, measure, and steward our resources, so that every shilling delivers maximum value. Our direct-provision healthcare model, which prioritises care over cash, together with mandatory due-diligence visits, reflects how integrity is embedded in every aspect of our work.

The Foundation's efforts are guided by our 2022–2026 Strategic Plan, which sets clear ambitions for financial growth and community impact across all pillars. We are already seeing this roadmap come to life. In Healthcare, we allocated KShs. 1.2 million towards COVID-19 relief. Under Vulnerable Groups, we invested KShs. 1.4 million to renovate Nyumba ya Wazee, an elderly home, in a project shaped directly by the residents' own priorities. This is partnership and co-creation in practice.

Above all, I am profoundly proud of the pro bono spirit that animates the IKM Foundation. The generosity, compassion, and professionalism of our lawyers and staff make this work possible. Their time, expertise, and commitment bring every initiative to life.

This report therefore reflects more than what we have achieved. It is a tribute to the people behind the work, and to the discipline, care, and shared values that ensure the IKM Foundation's impact is thoughtful, credible, and enduring.

Kamami Michira

Co-Chair, IKM Foundation

IKM Foundation Overview

Established in 2011, the IKM Foundation serves as the platform for IKM Advocates' Corporate Social Responsibility (CSR) initiatives. For over a decade, the Foundation has been actively supporting communities through key focus areas: Education, Health, Vulnerable Groups and Special Projects.

As the Foundation's flagship initiative, the Education Program fosters long-term transformation by ensuring access to education, which is fundamental to community success and development.

Our Strategic Imperative

The Foundation's 2022 - 2026 Strategic Plan, anchored in the vision "improving lives through responsible business practices" and mission ***"to implement programs that have positive impact on the communities and environments in which we work and live",*** outlines a structured roadmap to amplify impact through targeted programs, robust partnerships and enhanced accountability.

Our Values

Generosity: We believe in being open, patient, accepting, respectful, and giving without expectation.

Courage: We invite input from all our stakeholders in order to strive and succeed.

Accountability: We drive impact, work in collaboration, and deliver meaningful outcomes with honesty, fairness and transparency.

Transformation: We foster curiosity, energy, innovation, and growth in a safe and affirming environment.

Community: We nurture connections that lead to sustainable and impactful change.

Our Strategic Pillars

Community Impact: To engage and involve our participants in community-led interventions.

Funding Growth: Scale our programs through partnerships for greater impact.

Responsible Business Advocacy: "Pole positioning" in key sectors to influence ethical practices.

Program Sustainability: Continuously track our outcomes and impact to ensure maximum benefit for the community.

Funding Snapshot

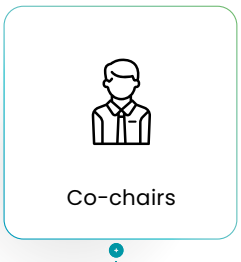

Below are our funding distribution for the 2022 -2024 reporting period:

Program	Total Disbursed for the Reporting Period (KShs.)	Total Program Beneficiaries during the reporting period	Annual Beneficiary
Scholarship	11,400,693	145	10 students
Head Start	13,486,953	26	6 students
Healthcare	380,000	1	At least one project aimed at promoting access to healthcare (such as KMHPA partnership)
Vulnerable Groups	553,891	576	At least one project sponsoring a particular cause (such as Nyumba ya Wazee project)
Special Projects	5,594,771	2557	At least one project such as charity drive and environmental activity

Foundation Governance Structure

The IKMF organisation structure involves the following:

Organisation Composition

The IKM Foundation operates with a streamlined yet strategically layered workforce structure designed to leverage both professional and voluntary expertise. At the core of operations is one full-time Program Manager (seconded from IKM Advocates), responsible for overseeing day-to-day operations and long-term strategy execution. Supporting this role is a dedicated volunteer contingent drawn primarily from IKM Advocates, consisting of nine committee members who contribute their legal and advisory expertise. High-level strategic guidance and oversight are provided by an Advisory Board featuring two Co-Chairs. Further operational support comes from various interns, who gain practical experience while assisting foundation activities. This structure blends professional management with skilled volunteerism and developmental opportunities.

Training and Development

- **Average Training Hours**
  - *Program Manager*: Completed 24 Continuing Professional Development (CPD) hours focused on project management during the reporting period.
  - *Volunteers (Committee Members & Co-Chairs)*: Receive a standardized 2-hour induction covering the foundation's mission, structure (IKMF), and operational protocols. This is supplemented by ongoing on-the-job training tailored to their specific roles and project needs. While we carefully track the number of hours during the initial induction period, we do not maintain formal hourly metrics for volunteers after their induction.
  - *Interns*: Training primarily consists of on-the-job guidance and practical learning experiences under supervision. No specific average hour figure is provided.
- **Skill Development and Career Progression Programs**
  - *Program Manager*: Benefits from a structured Annual Development Plan. This plan includes a dedicated budget allocated for external learning opportunities (e.g., conferences, specialized courses) and formal mentorship provided directly by the Advisory Board Co-Chairs. This dual approach focuses on both skill enhancement and strategic leadership development.
  - *Volunteers & Interns*: Skills development

occurs primarily through on-the-job training and experiential learning within their assigned committee tasks or project work. Formal career progression programs within the foundation structure are not explicitly outlined for these groups, as their primary engagement is voluntary or time-limited (internships).

Performance Management

- *Performance Review Coverage*: Performance reviews are conducted for 100% of the foundation's employees. Given the current structure, this applies specifically to the full-time Program Manager.
- *Review Process*: The Program Manager undergoes a formal Annual Appraisal conducted by the Advisory Board. This structured review assesses performance against objectives and contributes to development planning.
- *Communication of Career Development Opportunities*: For the Program Manager, discussions regarding career development and progression opportunities occur through direct dialogue with the Advisory Board, typically integrated within the annual appraisal process and ongoing strategic discussions.

Employee Benefits

- *Full-Time Engagement through IKM Secondment (Program Manager)*:
  - Private Medical Cover: Comprehensive private health insurance.
  - Pension Scheme: Employer-matched pension contribution, with IKMF matching employee contributions up to 5% of salary.
  - Annual Leave: Entitled to 21 days of paid annual leave per year.
  - All Personnel (Including Volunteers & Interns):
    - Workplace Injury Coverage: All individuals engaged in work for IKMF are covered by the Workplace Injury Benefits Act (WIBA) through IKM Advocates, providing statutory protection and benefits in case of injuries sustained while performing Foundation duties.

How We Create Impact

Access to Education

Education has the power to transform lives and uplift entire communities. The IKM Foundation's flagship Education Programme also demonstrates a strategic, multi-tiered approach to unlocking opportunities for marginalised Kenyan youth, ensuring that talent, not circumstance, determines a child's future.

IKMF Scholarship Program

The IKM Foundation Scholarship Program is a deliberate and impactful intervention designed to dismantle systemic barriers to education in Kenya. By targeting high-achieving students from low-income households, orphans, vulnerable children, and persons with disabilities, the initiative directly advances SDG 4: Quality Education by promoting inclusive and equitable learning opportunities for all.

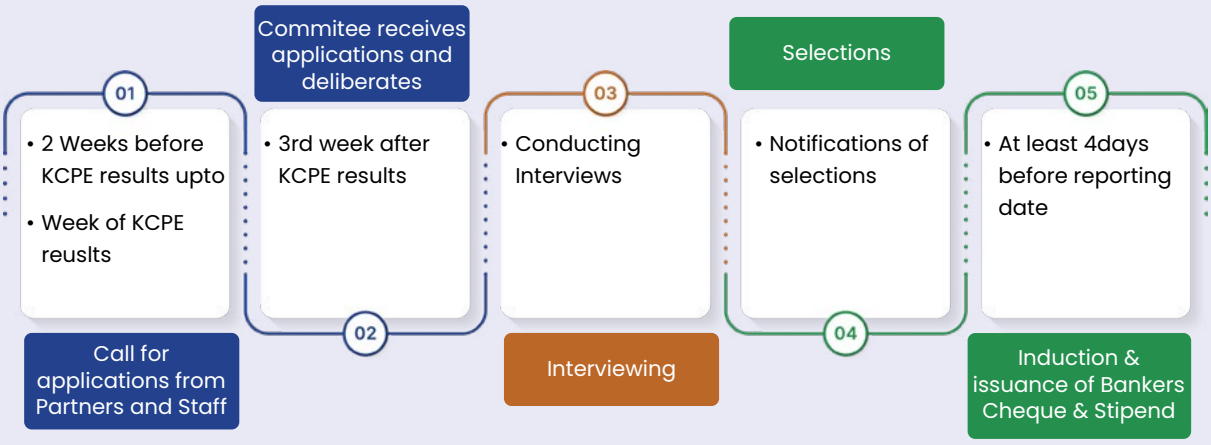

The program's selection process is engineered to identify and uplift exceptional students from the most underserved backgrounds. It employs rigorous, equity-focused criteria that begin with strong academic performance - applicants must score within the 70th percentile (350–380+ marks) on their Kenya Certificate of Primary Education (KCPE) exams, with results contextualized by their school and region. This ensures that merit is recognized within each student's unique environment.

Equity remains central throughout the process. Eligibility is limited to students from public schools, ensuring that support strengthens Kenya's national education system. Beyond academic achievement, the evaluation holistically considers each applicant's socioeconomic circumstances, leadership potential, and character, verified through a transparent review process that includes supporting documentation and school recommendations.

How we approach the selection of our scholars:

Our commitment to equity is reflected in the programme's selection scoring matrix, which actively prioritizes vulnerability. Extra points are awarded to applicants facing compounded challenges, including those living with disabilities, from underserved Arid and Semi-Arid Lands (ASAL) counties, those with chronic illness, orphans, children from single-parent households, and refugees. This deliberate design ensures that support reaches those for whom barriers are highest, making a tangible contribution to SDG 10: Reduced Inequalities by promoting social and economic inclusion irrespective of disability, status, or origin.

Each year, ten scholars are selected to receive comprehensive support that extends far beyond financial aid. The scholarship covers full tuition, essential academic materials, including tablets,

uniforms, and set books and provides ongoing mentorship throughout the four years of secondary education. This full circle support system not only enables academic excellence but also relieves the economic pressures faced by families, directly contributing to SDG 1: No Poverty by removing the financial burden of education.

Since inception, the programme has invested a total of KShs. 35.2 million, supporting 200 scholars-each one a story of resilience, opportunity, and transformation.

Tracer studies among alumni confirm the long-term impact of this investment:

- 85% report enhanced employability, leadership, and communication skills
- 70% note measurable improvements in overall quality of life
- 90% have strengthened core skills such as writing and research

These outcomes reveal that the scholarship does more than fund education, it builds human capital and unlocks potential. By equipping young people with the tools and confidence to shape their futures, the programme fosters SDG 8: Decent Work and Economic Growth and helps a new generation break free from cycles of poverty.

Head Start Africa Programme

Head Start Africa (HSA) is more than a scholarship, it is a launchpad for young minds whose potential might otherwise go unseen. Piloted in Kenya with the strategic co-funding of DLA Piper, the initiative dismantles the systemic barriers that keep talented students from pursuing careers in law due to financial and social constraints.

The programme begins with a rigorous and impartial selection process, where an independent panel conducts interviews and home verification visits to ensure that support reaches those with the greatest potential and need. This transparent process embodies our commitment to equitable opportunity and advances SDG 10: Reduced Inequalities by levelling the playing field for deserving students.

Once selected, Scholars embark on a transformative journey. While HSA bridges tuition gaps left by limited funding, its true value lies in holistic development. The programme includes a two-week residential bootcamp that strengthens leadership, communication, and professional skills; a structured mentorship model connecting Scholars to legal and business professionals; and access to internships within client-network for hands-on experience. Laptops and professional attire further ensure that scholars are equipped to learn and present themselves with confidence.

By focusing on both academic and personal growth, HSA delivers on SDG 4: Quality Education and SDG 8: Decent Work and Economic Growth. It builds not just professionals in the legal space, but leaders.

HSA's success is driven by collaboration. Through partnerships with organizations such as Tanari Trust, scholars receive leadership and professional skills training. Client-network law firms provide internship placements, and partnerships with schools and NGOs help identify promising candidates early. These alliances embody SDG 17: Partnerships for the Goals, proving that collective effort amplifies impact. To date, HSA has supported 26 Kenyan students and continues to track their progress at two, five, and ten-year intervals to measure long-term outcomes in career growth, income, and leadership development.

Case Studies

Transforming Lives Through Education and Empowerment

My name is Bernard Kamau, and my story begins in Nyandarua County, where my mother raised my two brothers and I all on her own. She worked tirelessly in seasonal casual jobs-anything that would put food on the table. Her relentless effort was my first lesson in determination. Watching her struggle taught me that strength isn't loud; sometimes, it's the quiet persistence of a woman who refuses to give up, even when the odds say she should.

But the truth is, life was hard. There were days when school felt like a distant dream. My mother did everything she could, but the financial strain of raising three children meant that every term, the fear of being sent home for fees was real. Still, I was determined to succeed.

Then came the opportunity that changed everything: the Equity Group Foundation awarded me a Wings to Fly scholarship. That support opened doors I had only dreamed of. I went on to complete my secondary education and scored an A- in my KCSE examinations. I chose to study law, a path that quickly became not just a career choice, but a calling.

At university, I became part of the Head Start Africa (HSA) programme, a turning point that gave my dream roots. HSA went beyond paying tuition; it was about equipping us to grow. Through mentorship, professional training, and real-world exposure, I began to see myself not only as a student, but as a future advocate for justice and change.

Beyond academics, the HSA programme gave me something even more valuable, practical skills for life. I learned how to write a CV, plan projects, think like an entrepreneur, and even the art of saving-knowledge that many young professionals only discover much later, if at all.

Those lessons changed everything for me. I decided to put what I'd learned into action and started a small farming venture, I started investing in livestock as a side business to support my family. Today, I own a heifer, seven sheep, and ten chickens. The income from selling eggs helps meet our daily needs and also serves as a savings pool for my future studies, including my tuition at the Kenya School of Law.

For me, the future is bright. With a law degree in sight, a thriving agri-business, and a renewed sense of purpose, I am living proof that with the right support and unwavering determination, no circumstance is too challenging to overcome.

But more than that, my farm became a symbol of freedom. It gave me and my family a sense of stability we had never known. What began as a small project has grown into a sustainable source of income, it is easing the burden on my mother and helping my brothers in ways that once seemed impossible. For me, it's more than just a business; it's a safety net, a source of pride, and a stepping stone toward long-term financial independence.

My story is proof of a simple truth: when young people from disadvantaged backgrounds are given the right tools, not just tuition, but mentorship, skills, and belief, we don't just succeed; we lift our families and communities with us. The HSA programme's model of integrating education with real-world preparedness is exactly what Africa's youth needs.

For me, the future is bright. With a law degree in sight, a thriving agri-business, and a renewed sense of purpose, I am living proof that with the right support and unwavering determination, no circumstance is too challenging to overcome.

Watch the IKMF Scholarship Stories

Case Study: Head Start Academy Empowers a Future Legal Champion

My name is Collince Omondi, and I was raised in an environment defined by struggle, a place where dreams often collided with reality. I grew up in a single-parent household headed by my uncle, where meeting basic needs was a daily battle. There were times when we weren't sure what tomorrow would bring. In such moments, the idea of going to university felt like an impossible dream, something reserved for others, not for people like me.

But even in that uncertainty, something inside me refused to settle. I had seen too much inequality, too much injustice in my community, to believe that things had to stay that way. Those experiences didn't make me angry; they gave me purpose. They shaped in me a powerful desire to fight for fairness to become a voice for those who couldn't speak for themselves.

The programme seeks out students like me: young people with potential, drive, and the will to succeed, but who face barriers far beyond their control.

Through HSA, I received not only financial support, but encouragement and mentorship that reminded me my dreams were possible.

HSA lifted the heaviest weight off my shoulders by covering my tuition and academic costs. For the first time, I could focus on learning without wondering how I'd afford the next semester.

The programme taught me that leadership is about character, not titles. I learned to speak with confidence, to think ethically, and to lead with compassion.

Through my mentors, I found guidance, encouragement, and a community that understood my journey, people who believed in me even when I struggled to believe in myself.

These experiences changed me. They turned fear into focus, and uncertainty into direction. What once seemed unreachable suddenly felt within grasp. The scholarship gave me the foundation to pursue a law degree, setting me firmly on the path to my professional dreams.

HSA helped me discover who I am; confident, resilient, and capable of leading others. The skills I gained extended far beyond the classroom; they became the tools I now use to navigate life itself.

And the impact hasn't stopped with me. My progress has inspired my family and community, showing them that possibility isn't determined by where you're born, but by what you believe you can become. My choice to study law is more than a personal ambition it's my promise to give back, to use my education to challenge the injustices that shaped my story.

Watch the Head Start Africa Stories

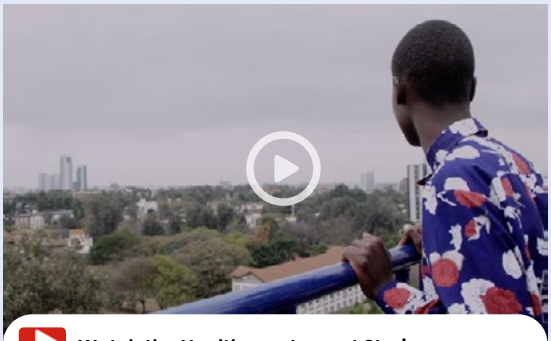

Enhancing Better Health Care

Access to healthcare is one of the most fundamental expressions of human dignity. The Foundation's Healthcare Program is built on this belief-to expand access and strengthen systems where need is greatest. Through targeted interventions, we fund critical treatments and support infrastructure improvements that deliver measurable, life-changing results.

Our healthcare support has taken many forms. In response to tragedy, we provided direct medical aid following the 2015 Garissa terror attack, covering surgical expenses and specialized care. We've also contributed to long-term resilience by participating in initiatives like the Faraja Cancer Center Rafting Challenge, which funded oncology services for patients in need, and by donating essential medical equipment to the Kenya Mended Heart Patients Association (KMHPA) to empower healthcare workers saving lives daily.

During the COVID-19 pandemic, the Foundation allocated over KShs. 1.2 million to emergency relief, addressing immediate healthcare gaps in vulnerable communities. Beyond the numbers, these efforts lifted the crushing financial weight of treatment from families while strengthening local healthcare capacity for the future.

Through this work, the Foundation directly advances SDG 3: Good Health and Well-being and SDG 10: Reduced Inequalities, ensuring that quality care reaches those often left behind. Our partnerships with hospitals, local organizations, and faith institutions embody SDG 17: Partnerships for the Goals, demonstrating that united action creates lasting healing and hope.

Watch the Healthcare Impact Stories

Proactive Strategies for Sustainable Healthcare Program Expansion

Expanding healthcare programs is vital for improving the population's health outcomes. However, unmanaged growth can inadvertently strain local resources, create dependencies, foster exploitation or disrupt existing social and economic structures. Proactively identifying and mitigating potential negative impacts is a critical act of foresight, essential for the long-term sustainability and success of any expansion initiative. The Foundation framework provides a robust model for minimizing such risks through a multi-faceted approach:

Partner and Vendor Vetting

Risk: Partnerships with unsuitable vendors can lead to substandard equipment, inflated costs, diversion of funds, or services that fail to meet community needs or standards. This wastes resources, damages program credibility and can introduce unsafe materials or practices.

Our Strategy: The Foundation mandates thorough due diligence before formalizing any partnership or procurement commitment. This includes verifying credentials, financial stability, past performance, adherence to ethical standards and local reputation.

Explicit Informed Consent for Data and Images

The Risk: Collecting patient data (medical records, personnel information or images) without proper consent violates privacy, exploits vulnerable individuals, damages trust and can lead to stigmatization or unintended use of sensitive information.

Our Strategy: We mandate obtaining comprehensive written consent from parents (for minors) or patients themselves. This consent clearly explains the specific data/images being collected, their intended use (such as program monitoring, anonymized reporting), storage protocols and the individual's right to withdraw consent.

Direct Provision of Goods and Services

Risk: Providing direct cash payments to individuals or families for medical expenses or unrestricted cash donations, carries significant risks. Funds can be misappropriated or diverted for non-health purposes. It also makes tracking utilization and impact extremely difficult.

Our Strategy: The Foundation eliminates the risk by operating on a "direct provision" model. This means purchasing necessary medical equipment, supplies or donation items directly from vetted suppliers and delivering them to the program. Payments for medical services are made directly to the qualified providers (such as hospitals and clinics) upon verification of service delivery, never as cash to patients or intermediaries.

Due Diligence Visits

The Risk: Relying solely on submitted applications or reports can lead to inaccuracies, misrepresentation of need, failures to identify unintended consequences or diversion of support away from the intended beneficiaries. Resource strain on specific households or local service might go unnoticed until it becomes a crisis.

Our Strategy: We address the risk through the following two-stage verification process:

1. **Pre-Intervention Verification:** Conducting home or site visits to verify the applicant's circumstances, needs and suitability for the program. This ensures resources are used properly, which increases transparency and accountability.
2. **Post-Intervention Verification**: Following project completion or support delivery, conducting visits to confirm the assistance reached the correct beneficiary and achieved its intended outcome. This stage actively looks for "signs of negative impacts", such as unexpected burdens on the household, strain on local health facilities, or community tensions.

Creating Shared Value

The Foundation strategically aligns social impact with sustainable community development, ensuring initiatives generate cascading economic benefits. The key models include:

Infrastructure Development
Of profound impact and strategic design, the recent borehole projects at St. Christopher's School in Kitale and St. Maria Goretti School in Loitoktok represent a multifaceted intervention in community development, directly aligning with and advancing several key Sustainable Development Goals (SDGs). These initiatives extend far beyond the simple provision of water, serving as powerful catalysts for health, economic vitality, environmental sustainability, and gender equality.

Fundamentally, these projects are a direct response to SDG 6: Clean Water and Sanitation. By establishing a reliable source of clean water, they have eradicated a critical barrier to well-being for both learners and the surrounding communities. This access is a prerequisite for health, dignity, and the prevention of waterborne diseases, creating a foundation upon which other development goals can be built.

The method of implementation itself demonstrates a keen alignment with SDG 8: Decent Work and Economic Growth. By consciously prioritizing the sourcing of materials and labor from within their respective regions, the projects injected capital directly into the local economies. This approach stimulated community businesses, created short-term employment, and fostered a sense of local ownership and investment in the project's success, ensuring its benefits are felt immediately and tangibly by residents.

Furthermore, the installation of a solar-powered water pump at St. Christopher's School demonstrates innovation in promoting access to clean energy, aligning with SDG 7: Affordable and Clean Energy. This strategic decision enhances the project's long-term sustainability by eliminating reliance on costly and polluting fossil fuels, significantly reducing operational expenses. This clean energy solution not only ensures the borehole's financial viability but also contributes to climate action, echoing the aims of SDG 13: Climate Action by adopting a low-carbon, resilient technology.

Perhaps one of the most significant transformative effects of these boreholes lies in their contribution to SDG 5: Gender Equality. The burden of water collection has historically and disproportionately fallen on women and girls, consuming hours each day that could otherwise be spent on education, income-generating activities, or rest. By providing accessible water on-site, these projects liberate precious time for female students and women in the community, creating opportunities for personal and academic advancement and challenging deeply ingrained gender norms. These water access projects are exemplary models of sustainable development in action. They illustrate how a single, well-considered intervention can create a ripple effect, simultaneously addressing the critical needs of water and sanitation while driving inclusive economic growth, promoting renewable energy, mitigating climate impact, and empowering women and girls.

Inclusive Community Engagement

Our approach to supporting vulnerable groups is fundamentally guided by a single, powerful principle: that sustainable impact must be rooted in the authentic voices of the community. We believe that true progress is not delivered from the outside in, but built from the inside out. This commitment to participatory engagement ensures our interventions are never imposed but are instead actively co-designed to be responsive to the specific needs defined by the people we serve.

We facilitate this through dedicated consultation sessions, where providing stipends guarantees that economic barriers do not silence participation, thus offering a genuine platform for beneficiaries to guide our actions. This ethos directly advances SDG 10: Reduced Inequalities by promoting the social and political inclusion of all, irrespective of age, ability, or status.

The tangible impact of this community-led model is vividly illustrated in our projects. For instance, the extensive renovations at the Nyumba ya Wazee elderly home in Kasarani, valued at over KShs. 1.4 million, were not a predetermined plan but a direct response to the specific requests identified by the residents and their surrounding community. This initiative underscores our dedication to SDG 11: Sustainable Cities and Communities, aiming to create inclusive, safe, and resilient living environments for all ages. Similarly, our strategic installation of solar panels for vulnerable households delivers more than just clean energy; it catalyzes a cascade of benefits. By significantly reducing energy costs, this intervention (SDG 7: Affordable and Clean Energy) unlocks crucial financial resources, empowering families to redirect funds towards other self-identified urgent priorities like food, healthcare, and education, thereby also contributing to SDG 1: No Poverty.

> ***We believe that true progress is not delivered from the outside in, but built from the inside out.***

Our commitment extends holistically to the well-being and future of vulnerable children. We provided essential, life-sustaining support through donations of food and necessities to centers like the Angels Center for Abandoned Children in Waithaka, addressing immediate needs and upholding SDG 2: Zero Hunger. Recognizing that long-term empowerment is built on the foundation of knowledge, we invest in education by contributing to the construction of new school buildings with partners like the Amara Charitable Trust and making direct donations to institutions such as the Thika School for the Visually Impaired. Our fundraising support for established educational pillars like the Palmhouse Foundation and Starehe Girls Centre further demonstrates our targeted commitment to SDG 4: Quality Education, ensuring inclusive and equitable learning opportunities for all young people.

Furthermore, we understand that human development encompasses both mind and body. In support of SDG 3: Good Health and Well-Being, we champion corporate sports initiatives, such as the Standard Chartered Marathon. Such efforts promote physical health, foster community cohesion, and provide positive outlets for youth.

Financials

1. Financial Overview (Limited Scope) 2022-2024

This section presents our financial sustainability performance of IKM Foundation (IKMF) from 2022 to 2024, covering key programme areas including Education, Healthcare, Vulnerable Groups, Special Projects, the Financial Assistance Program (FAP). The report is aligned with GRI 201-1 (Direct Economic Value Generated and Distributed), 203-1 (Indirect Economic Impacts), 207-4 (Tax Transparency), 404-1 (Training & Education), 405-1 (Diversity and Equal Opportunity), and 413 (Local Communities).

ESG Pillar	Inputs & Investments	Outputs (2022–2024)	Outcomes	Long-term Impacts (SDGs)
Economic	KShs. 11.4M in Education; KShs. 13.4M in HSA	200 scholarships, 26 HSA mentees	Improved employability, reduced poverty cycles	SDG 1 (Reduced Poverty), SDG 4 (Quality Education), SDG 8 (Decent Work)
Social	KShs. 1.7M in FAP; Kshs. 550,000 in Vulnerable Groups KShs. 380,000 in Healthcare	27 direct beneficiaries 1 life-saving intervention	Gender equity, health resilience, and inclusion of marginalized groups	SDG 3 (Good Health), SDG 5 (Gender Equality), SDG 10 (Reduced Inequalities)
Environmental	KShs. 5.6M in Special Projects	2,557 people with clean water/energy	Reduced energy costs, climate resilience	SDG 6 (Clean Water), SDG 7 (Clean Energy), SDG 13 (Climate Action)
Governance	Anti-corruption, stakeholder mapping	100% disbursement integrity	Strong fiduciary trust	SDG 16 (Peace, Justice & Strong Institutions)

1.1 Total Investments by Pillar (KShs. 33.72M, 2022–2024)

» **Education Program:** Education remains the cornerstone of our work, with investments rising from KShs. **1.49M in 2022** to KShs. **5.74M in 2024** - a compound annual growth rate of **95%**. During the reporting period, **163 students** received scholarships, mentorship, and academic support. Education now accounts for **one-third of the total spend**, signaling deliberate prioritization of human capital.

- **IKMF Scholarship program:** KShs. 11.4M – While unit costs average KShs. 78,600 per student, these investments represent long-term dividends in employability, social mobility, and reduced intergenerational poverty.
- **Head Start Africa (HSA)**: Kshs. **13.4M** – providing targeted scholarships and mentorship to **26 students** with high growth potential. With an average cost of Kshs. **374,000 per student**, highly competitive programme designed for depth rather than just scale. The aim is to cultivate diverse leaders who will transform the legal profession and related sectors. Partnerships with DLA Piper and other institutions enhance the program's credibility and multiplier effect.

» **Special Projects:** Kshs. **5.6M** – Community-based program design benefiting **2,557 community members**. This pillar demonstrates IKMF's highest impact efficiency, ranging from community development to responsive initiatives, showing the Foundation's ability to mobilize resources at scale while staying cost-effective. For many communities, Special Projects are their first direct engagement with IKMF, expanding our social footprint and delivering community-level reach.

» **FAP (Financial Assistance Program)**: KShs. **1.7M** - Social safety nets supporting **27** direct beneficiaries.

- **Vulnerable Groups:** KShs. **550,000** - reaching diverse individuals, including women, youth, and marginalized groups. Vulnerable Groups programming provided targeted assistance to marginalized populations. While per-beneficiary costs vary, these interventions are essential in delivering immediate relief, reducing inequalities, and ensuring that no one is left behind.
- **Healthcare**: In 2022, IKMF allocated KShs. **380,000** toward a specialized healthcare intervention, directly benefitting one individual. However, subsequent years saw no new allocations, signaling a strategic pause in this area. While healthcare remains a critical need in Kenya, the foundation's current model requires reassessment to ensure that resources are deployed in a way that balances equity with measurable community outcomes. Going forward, healthcare spending will be revisited under a redesigned framework that provides both impact and sustainability.

Notes

- **Our Special Projects** delivers scale at low cost, while HSA delivers depth at high cost, balancing IKMF's portfolio.
- **Vulnerable Groups** and FAP, though modest in financial terms in comparison to our other programs, align strongly with SDG 5 (Gender Equality) and SDG 10 (Reduced Inequalities).
- **Healthcare** delivery models will be reviewed and strengthened to enhance impact.
- Data tracking for **Vulnerable Groups** will be improved to support more comprehensive reporting.
- Additionally, ESG tagging across all expenditures will be adopted to improve traceability.

1.2 Year-on-Year Trends

- **Education** grew steadily (+26% CAGR), reflecting a deliberate scale-up of scholarship programs.
- **Healthcare** investments dropped sharply after 2022, signaling a strategic shift.
- **Special Projects** and **HSA** remain high-investment, high-impact categories.
- **Vulnerable Groups** allocations remain small but socially critical.
- Growth was driven by **education scholarships** and **HSA disbursements**, alongside scaled infrastructure projects under **Special Projects**.

1.3 Cost-Efficiency Analysis

IKMF prioritizes efficient use of funds. Based on available beneficiary data:

- Education: approx. **KShs. 78,627** per student supported.
- Healthcare: High-cost per beneficiary **(KShs. 380,000).**
- Special Projects: Most efficient at approx. **KShs. 730** per person reached.
- HSA: Leadership program high investment at approx. **KShs. 374,000** per scholar.

This shows how different program types yield varying efficiency ratios — large infrastructure projects achieve scale at low unit costs, while scholarships and medical support have higher unit costs but transformational depth.

1.4 Disbursement Integrity & Controls

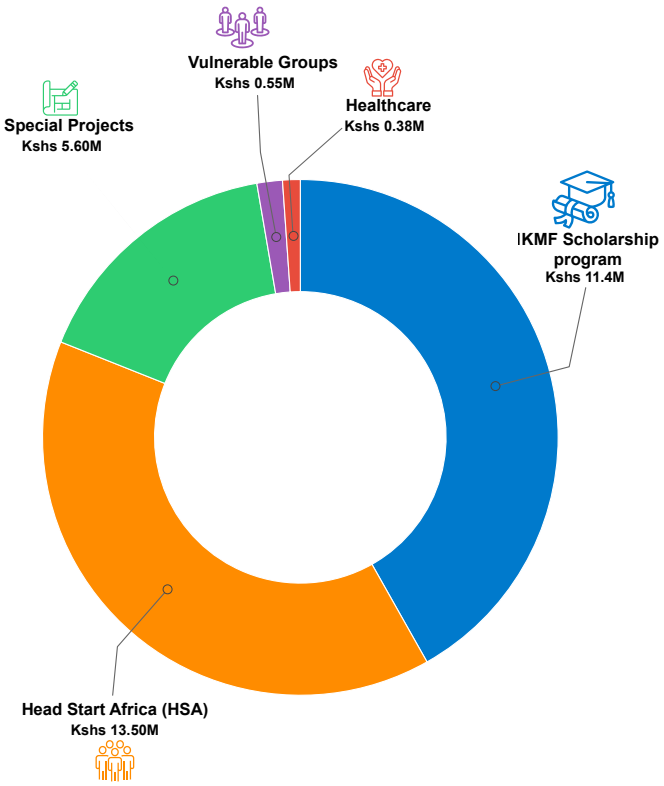

The Foundation has applied strong governance measures to ensure transparent fund management:

- Two-tier approval processes for disbursements.
- Bank reconciliations and audit trails for every program.
- Periodic program audits to validate expenditure versus beneficiaries.
- Conflict-of-interest and anti-corruption policies applied in line with GRI 205: Anti-Corruption.

1.5 ESG-linked Financial Flows

- **44% of the funds** directly supported ESG-integrated projects while the rest were directed to operational costs.
- Investments were mapped into the following:
  - **SDG 4 (Quality Education)**: Education, HSA
  - **SDG 3 (Good Health)**: Healthcare, FAP
  - **SDG 6 (Clean Water and Sanitation) and SDG 7 (Affordable and Clean Energy)**: Special Projects
  - **SDG 10 (Reduced Inequalities)**: Vulnerable Groups

The diagram summarizes the capital disbursed to mainstream IKM Foundation initiatives.

Governance & Ethics

- **IKM Advocates Board & Leadership:** IKM operates as a partnership, and therefore does not maintain a separate corporate board. Governance and strategic oversight are provided through the Managing Partner, Senior Partners, Partners, and Director. The senior leadership team reflects a balanced representation of 50:50 (men to women).

- **IKM Foundation Board & Leadership:** The IKM Foundation (IKMF) is a registered charitable foundation linked to the law firm. The IKMF 2022–2026 Strategic Plan shows that governance is organized under an **"IKM Advocates as the anchor sponsor/ source of main funding"** and two **co-chairs** (Beatrice Nyabira and Kamami Michira) overseeing an IKM CSR committee. The membership of the CSR committee is voluntary and changes after a 3-year period.

- **Persons with Disabilities (PWDs):** The IKM Foudnation currently does not have any persons with disabilities serving on the board serving in the leadership or board roles. However, our program policies emphasize disability inclusion: for example, the Education Program strategy requires that each year's scholarship cohort includes at least one person living with disability.

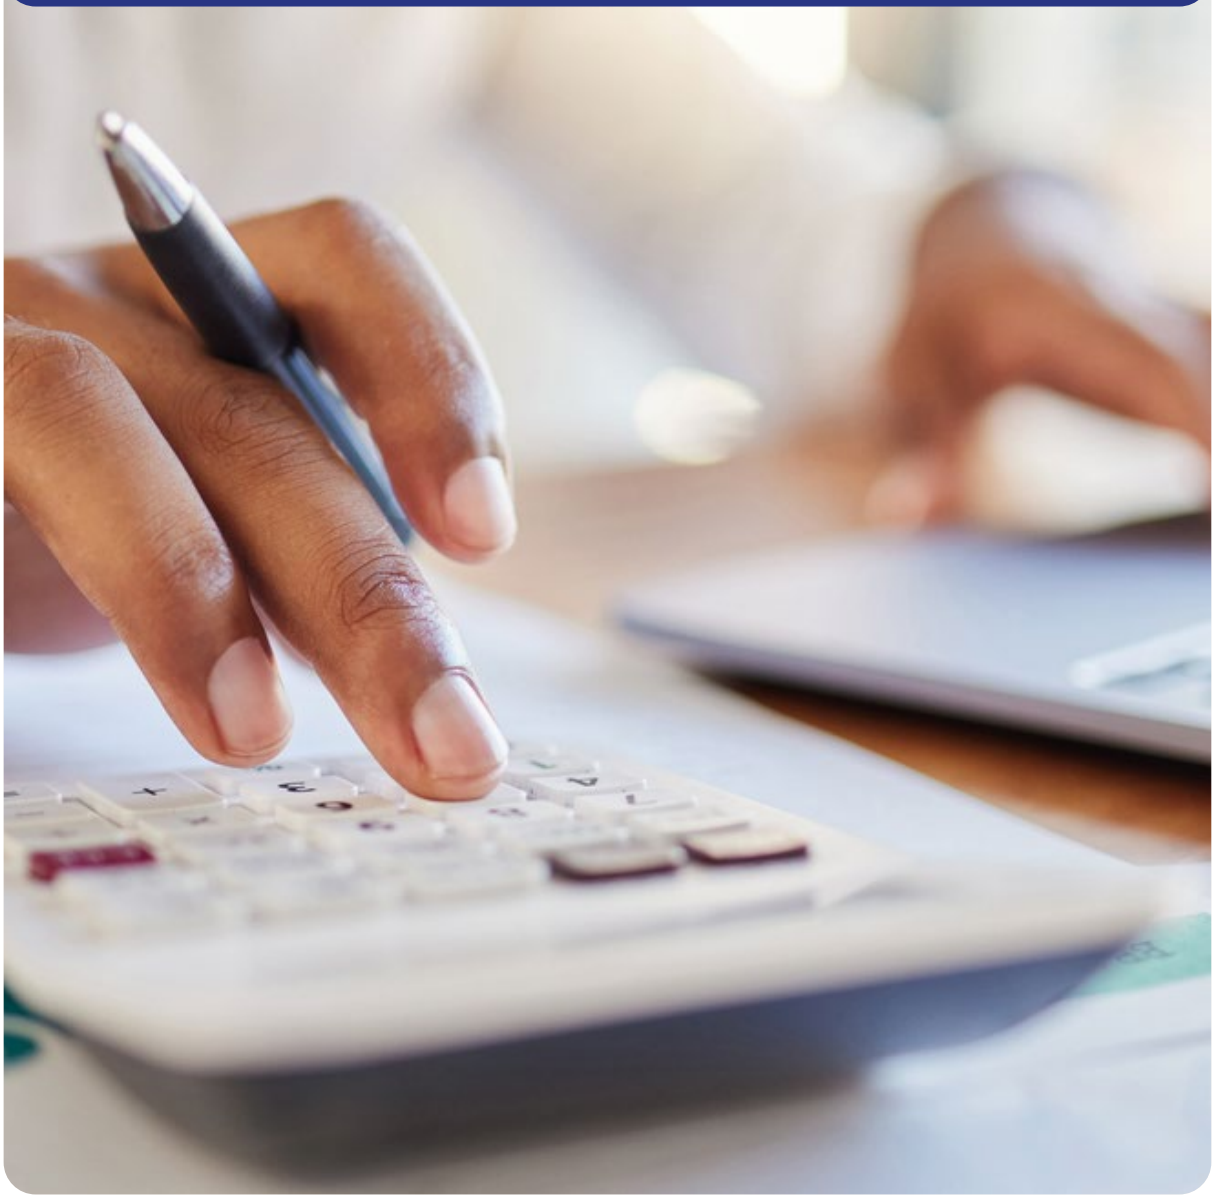

- **Diversity, Equity & Inclusion Efforts:** Through our Responsible Business framework, we promote respect for and appreciation of different cultures while cultivating an environment where individuals from diverse backgrounds can contribute and thrive. Our programs aim to advance equity and inclusive access to opportunity. For instance, the scholarship scholarship initiatives support students from low-income backgrounds and incorporate inclusion requirements that ensure participation by girls and students with disabilities within beneficiary cohorts.

Data Management

We anchor our financial accountability in rigorous tracking mechanisms through program ledgers, regular bank reconciliations, and comprehensive monitoring and evalution. Together, these tools give us a dependable bakcbone for overseeing every financial disbursement.

We appreciate that without a dedicated ESG data management system, we cannot systematically capture, analyze or report on the full environmental, social and governance effects of our work.

To close this gap and elevate both our sustainability reporting and our impact measurement, we are rolling out a phased ESG data management framework. This structured approach will sharpen our ability to monitor programe outcomes, embed ESG indicators more seamlessly into our financial reporting, and ultimately communicate our development impact with far greater clarity and openness.

	Disclosure 417-3 Incidents of non-compliance concerning marketing communications	**Information Unavailable**
GRI 418: Customer Privacy	Disclosure 418-1 Substantiated complaints concerning breaches of customer privacy and losses of customer data	**Information Unavailable**
GRI 419: Socioeconomic Compliance	Disclosure 419-1 Non-compliance with laws and regulations in the social and economic area	**Information Unavailable**

SDG Mapping Matrix

Our programs are aligned with the United Nations Sustainable Development Goals (UN SDGs). The matrix below illustrates the specific contributions of each program toward these goals.

Programs	SDGs Addressed	SDG Alignment
IKMF Scholarship Program	4: Quality Education 	Our core mission is to provide inclusive and equitable quality secondary education for marginalized students.
	1: No Poverty 	The comprehensive support (tuition, materials) removes the financial burden of education from struggling families, directly alleviating poverty.
	10: Reduced Inequalities 	The equity-focused selection criteria and scoring matrix that prioritizes vulnerable groups actively reduce inequalities within the education system.
	8: Decent Work and Economic Growth 	By building human capital, enhancing employability, and breaking cycles of poverty, the program equips scholars for future decent work and contributes to economic growth.
Head Start Africa	4: Quality Education 	Provides holistic support (tuition, bootcamps, mentorship, laptops) for inclusive and equitable tertiary education in the legal field.
	10: Reduced Inequalities 	Directly confronts financial and social obstacles for students from excluded backgrounds, using a rigorous and impartial selection process to ensure equitable opportunity.
	8: Decent Work and Economic Growth 	Fosters diversity in Kenya's legal sector, provides real-world internship experience, and equips scholars with skills for productive employment and economic growth.
	17: Partnerships for the Goals 	Strategic collaborations with law firms, NGOs (Tanari Trust), and public schools are central to the program's delivery and impact.

Healthcare Program	3: Good Health and Well-being 	The fundamental mission is to expand access to healthcare through targeted treatments, strengthening infrastructure, and funding critical care for underserved communities.
	10: Reduced Inequalities 	Focuses on the most marginalized to reduce inequality in health system access.
	17: Partnerships for the Goals 	Collaborations with local organizations (e.g., Faraja Cancer Center, KMHPA) are key to implementing solutions.
Special Projects	5: Gender Equality 	Liberates women and girls from the time-consuming burden of water collection, creating opportunities for education and other activities.
	6: Clean Water and sanitation 	The direct outcome of one of the projects is providing a reliable source of clean water for schools and communities.
	8: Decent Work and Economic Growth 	Sourcing materials and labor locally stimulates the community economy and creates short-term employment.
	7: Affordable and Clean Energy 	The solarization of the pump at St. Christopher's provides a clean, affordable, and sustainable energy solution.
	13: Climate Action 	The use of solar power reduces reliance on fossil fuels, contributing to climate action.

Supporting Vulnerable Groups	2: Zero Hunger 	Donations of food and necessities to children's centers directly work towards ending hunger.
	3: Good Health and Well-being 	Support for sports initiatives and marathons promotes physical health and community well-being.
	4: Quality Education 	Contributions to school construction and direct donations support inclusive education.
	7: Affordable and Clean Energy 	Installation of solar panels provides vulnerable households with access to affordable and clean energy.
	10: Reduced Inequalities 	The guiding principle is participatory engagement and co-design with vulnerable communities to promote social inclusion.
